

Would you like to go to places that will change your life?

Join us as we look at the places of dreams and inspiration, the many Sacred Spaces of the world! In 1979 the author left on a round the world journey to spiritual spots all over the planet. She has been traveling to these spots ever since. This book is both a practical travel guide with information on many special spots for you to be inspired, and stories of some of her adventures on the way. It is a story of Pilgrims on the Path and how one can use travel as a way to grow in ones personal expansion and spirituality.

There is a whole group of people who experience joy just at the sight of a suitcase. This is for all people who chose to answer that call, as well as anyone wanting to explore the world from their armchair. Full of pictures and also great to read in airports. A fun romp through our earth mother!
